

Project Brief

I-15; NB I-15 Under 10600 South

**2007 Legislative
Update**

Provided By:

Project Description: DESIGN, Lane Addition, Choke Point Project

This choke point project will improve capacity on I-15 under 10600 South. On northbound I-15 at 10600 South, the general purpose lanes decrease from four to three. This project will increase the number of general purpose lanes to four underneath the structure. It will also add an additional dedicated northbound off-ramp lane at 10600 South to help eliminate traffic backing onto mainline I-15.

Anticipated Project Schedule:

The project bid opening took place on December 12, 2006. Construction is currently planned for Spring 2007.

A Public Information Manager will be assigned to this project to work with local businesses and commuters during construction.
